I would respond assuming Enrique is ok with it that you are working with me on gathering the info and can do a call once the info is gathered and we can schedule a call if it is necessary.

Thank you,  
Mindy Clements, Superfund

**Subject:** Ghost Smelters

Sharon:

It has been a long time since we last talked. I'm happy to see that you are now working in Superfund, my old home. As you may have heard, I'm working for Los Angeles County helping them on Exide. When the County heard about the ghost smelters, they asked me to find out what I could from EPA. Looking at the list, I believe that there are four ghost smelters in the County. Could we do a short phone call sometime tomorrow or Thursday morning? I would like to learn more about the background and some of the basic information that you might have. Please let me know what times are convenient for you.  
Thanks!!!

Keith
